

Course & Description	Instructor	Grade Range	Day	Max Enrollment	Price
<u>BRONCO NINJA WARRIOR AND SPARTAN TRAINING</u> If your child loves obstacle courses, ninja warrior challenges, and training for spartan races, this is the class for them. Gillian McGovern will have the class jumping, swinging, and participating in challenges that kids will love. Students will be engaged in short workouts that will make it seem like they are at a Spartan Race! In addition, to the classes at the school, students will have an amazing opportunity to take a trip to a Ninja Warrior facility in Elmsford called The Westcheser Gym	Caralyn Nannariello	3-5	Monday (12 Weeks)	18	\$330
<u>CARTOONING</u> Just imagine drawing your favorite cartoon or real life subject and thinking: "Wow, I can draw!" With Mr. Mike's pencils as your keys, he will help you open the door to the crazy, wild world of cartooning! Learn the secrets of good drawing too! It's incredible! With Mr. Mike drawing along with you, you will explore all kinds of new fun characters and places. See your characters come to life before your eyes! And remember, each new series has all NEW stuff to learn. Be prepared to learn and laugh, and you will see why, Mr. Mike loves this form of art--and you will too!	Mike Teator	1-2	Monday (12 Weeks)	12	\$305
<u>COOKING</u> The Cooking Crew is back for another semester! Grab your aprons and let's get cooking! The fun filled foodie adventure continues with all NEW tasty treats and delicious recipes from around the world! We'll learn how to make pasta from scratch, the secret to making crepes and how to make authentic spanakopita! This class is offered for both new and repeat students.	Fran Brescia (Cooking Crew)	3-5	Monday (12 Weeks)	12	\$330

Course & Description	Instructor	Grade Range	Days	Max Enrollment	Price
<u>CPR/FIRST AIDE LIFESAVER TRAINING</u> The Family & Friends CPR Course teaches the lifesaving skills of adult Hands-Only CPR, adult and child CPR with breaths, adult and child AED use, infant CPR, and mild and severe airway block for adults, children, and infants. Basic first aid skills will also be taught. Skills are taught in a dynamic group environment using the AHA's research-proven practice-while-watching technique, which provides students with the most hands-on CPR practice time possible. * This is not a certification class, however students will learn the lifesaving techniques	Michael Marino	5-8	Monday (7 Weeks)	10	\$225 Register Through MS BASC
<u>CREATIVE CRAFTS</u> K artists will enjoy developing their artistic skills and creative talents while designing unique creations using a variety of art mediums and materials. They'll explore the techniques of well-known artists, create seasonal crafts and enjoy open studio time in a relaxed and fun atmosphere!	Erin Cramer & Val Palacio	K-1	Monday (12 Weeks)	20	\$305
<u>DISCOVERING STEM</u> Hands-on, project-based challenges designed to tap into critical thinking skills with an emphasis on innovation and creativity. Our programs mix all the elements of STEM to encourage problem-solving skills while developing team building strategies. The key objective is to introduce basic concepts of STEM while having the opportunity to fail and try again in safe environment.	Lori Stratton (Knowledge to Grow On)	K	Monday (12 Weeks)	12	\$330
<u>DRUMS 101</u> Drums 101 gives students the opportunity to apply their rhythmic knowledge to the entire drum set. We will use contemporary music in order to develop an understanding of the drummer's role in a band. The students will focus on coordination techniques as well as drum rudiments in order to build the confidence to play different styles of music. We will learn to listen to other instruments and how a drummer interacts with these instruments while laying the foundation for the rest of the band.	Bach to Rock	1-3	Monday (12 Weeks)	12	\$330

Course & Description	Instructor	Grade Range	Days	Max Enrollment	Price
<u>FUN BALL</u> The words “Fun Ball” speak for themselves; it has been the most popular class in the BASC program from two years and students are absolutely loving it. This one of a kind, unique course is the evolutionary change to Dodge Ball that has made the game faster paced, more exciting, and allows all players to be engaged. Fun Ball is played in a way that keeps students safe and leaves them with a smile on their face. So if your child loves physical education class and dodgeball, don't miss this opportunity.	Anthony Vaglica	1-3	Monday (12 Weeks)	60	\$305
<u>MAGIC AND ANIMAL BALLOON MAKING</u> Join Joseph Fields to uncover magic's biggest secrets and become proficient in the art of illusion. You will be introduced to the basics involved in sleight-of-hand and showmanship. You will learn the secrets and the mechanics behind each beginning magic trick involving: ropes, scarves, coins, cards, balls and more. Throughout the semester, students will take a quick break from the magic and create animals using balloons!	Joe Fields	1-4	Monday (12 Weeks)	18	\$305
<u>MAKER MONDAYS</u> “Making” is a habit of mind where creativity is the first ingredient. The MakerSpace is often associated with fields such as engineering (designing, prototyping, building, etc.). Making allows students to take control of their own learning, as they are designing projects and creating with their hands. Through “Making,” students gain confidence in their own abilities and become engaged at deeper levels than if there were no hands-on component. Many skills can be taught in a traditional classroom setting where they are typically learned through practice and coaching. In our maker BASC class, children will learn and hone problem-solving skills. Some projects will be designed to teach a specific skill such as using a hammer or glue gun. Other projects will use acquired skills for an undefined process--students can design their own outcomes, which is incredibly powerful. Students will also have the opportunity to use Robotics in addition to making and creating.	Carole DelJuidice	3-5	Monday (12 Weeks)	12	\$305

Course & Description	Instructor	Grade Range	Days	Max Enrollment	Price
<u>MINECRAFT 3D PRINTING</u> What's better than building in Minecraft? How about being able to 3D Print objects from Minecraft! Students will explore 3D Printing technology and how to safely operate a 3D Printer. They will then use Creative mode in Minecraft to build castles, villages, characters and much more and 3D print their designs to take home!	Digital Art Experience	1-3	Monday (12 Weeks)	12	\$330
<u>POLYMER JEWELRY AND SCULPTURE</u> Create a beautiful customized charm bracelet and a jewelry box to hold it. Each week students will create a unique trinket based on their interests- sports, animals, food, etc to add onto their charm bracelet. They will also create a funky clay jewelry box with a lid to hold their finished piece. At the end of this course everyone will go home with their own custom charm bracelet and a jewelry box.	Nicole Zahour	3-5	Monday (12 Weeks)	20	\$305
<u>PROJECT ADVENTURE</u> Kids will meet Brian Parise and Brian Senior in the Blue Gym for these intensive sessions of Project Adventure. Learn all the elements involving Project Adventure! Walk the high ropes course, fly down the zip-line, scale the new climbing wall and hone your teamwork skills. Students will leave with a huge smile on their face wanting to explore more! Please note, this class will not be attending The Rock Club.	Brian Parise & Brian Senior	4-5	Monday (12 Weeks)	20	\$305
<u>YOGA AND MINDFULNESS</u> Research has shown that mindfulness and yoga practices can decrease stress and anxiety in children while improving emotional regulation, the ability to focus and social relations - all proven contributions to academic achievement. In this Yoga and Mindfulness class, through fun activities and games, we will learn to support our overall emotional and social well-being.	Jillian Tomlin	5-8	Monday (7 Weeks)	10	\$225 Register Through MS BASC

Course & Description	Instructor	Grade Range	Days	Max Enrollment	Price
<u>HOMEWORKING MENTORING</u> This course will have students learning organizational strategies, reviewing material that align with curriculum, and allows them the opportunity to complete their classroom assignments. The big change this semester is that in addition to working closely with Dr. Thomas, elementary students will have the opportunity to be inspired by high school student volunteers. This new course will have young students completing their homework, feeling motivated by Bronxville's upperclassman, and learning techniques to make them better students overall.	Dr. Minu Thomas & Jillian Tomlin	2-5	Tuesday or Thursday (12 Weeks)	10	\$305
<u>3D PRINTING</u> Greg Distefino, Bronxville's outstanding MS Tech teacher. He will introduce students to the new, innovative technology of 3D printing! Objects to be made include but are not limited to an acoustic amplifier for smart phones, birdhouses, action figures and puzzles. Students will create an image of an object and have it come to life.	Greg Distefino	3-5	Tuesday (12 Weeks)	12	\$305
<u>ANIMAL ADVENTURES</u> A fun, hands on, learning experience with live animals. We will cover topics such as animal defenses, habitats, adaptations, and skeletons with different mammals, birds, reptiles, amphibians and insects. We may also include some arts and crafts related projects on occasion for the students to take home. Come enjoy with us!	Nature of Things	1-5	Tuesday (12 Weeks)	15	\$305
<u>BASEBALL</u> Join ex-minor league baseball player, Dean Tatarian, for a fun and exciting class that will allow students to learn and play the game in a positive and fun atmosphere. Students will be participating a variety of different lead-up activities and also playing baseball multiple ways that will keep the kids fully engaged and having a blast. Coach T always creates high energy games that kids love!	Dean Tatarian	1-3	Tuesday (12 Weeks)	24	\$305

Course & Description	Instructor	Grade Range	Days	Max Enrollment	Price
<u>BEGINNER SPANISH</u> In this semester we are learning Spanish through the fun of singing, making projects and playing games. We will learn vocabulary. In an effort to provide a wide opportunity to learn Spanish, all children are welcome to participate in our class. Please note, that this class will run one day per week.	Mi Atico	K-2	Tuesday (12 Weeks)	12	\$330
<u>CERAMICS</u> Love working with clay? Explore the basics of clay by creating your own masterpieces! Experiment with a variety of ceramic techniques and then decorate with glazes.	Jackie D'Arco	5-8	Tuesday (8 Weeks)	10	\$225 Register Through MS BASC
<u>FUN BALL</u> The words "Fun Ball" speak for themselves; it has been the most popular class in the BASC program for two years and students are absolutely loving it. This one of a kind, unique course is the evolutionary change to Dodge Ball that has made the game faster paced, more exciting, and allows all players to be engaged. Fun Ball is played in a way that keeps students safe and leaves them with a smile on their face. So if your child loves physical education class and dodgeball, don't miss the opportunity.	Anthony Vaglica	3-5	Tuesday (12 Weeks)	Weeks 1-3 40 Weeks 4-12 20 additional students will be let off the waiting list and allowed in the class at a prorated cost.	\$305
<u>GETTING STARTED WITH SCRATCH AND CODING</u> Create interactive animations and exciting games with Scratch! Scratch is an MIT designed programming language that is specifically designed to make programming fun and easy. Students will start with the hour of code and then explore the basic of using Scratch. They will then create original animations and interactive video games that they can share with their friends and family!	Digital Art Experience	1-3	Tuesday (12 Weeks)	12	\$330

Course & Description	Instructor	Grade Range	Days	Max Enrollment	Price
<u>GYMNASTICS</u> Gymnastics is back for another semester! During this class, kids will have the opportunity to explore various gymnastic skills from body weight movements, to tumbling, to balance. This gymnastics class will help develop strength, coordination, and flexibility, and will boost self confidence. This is a great class that you won't want to miss!	Gillian McGovern	1-3	Tuesday (12 Weeks)	20	\$305
<u>PASSPORT</u> Take a Trip Around the World The BASC Program is thrilled to welcome Toby Gillen to the schedule! Toby is a middle/high school language teacher and will bring her vast knowledge of the world into the classroom. Students will explore a different country each class by immersing themselves into it's culture. At the conclusion of this class, students will have a child-friendly passport book with stamps from multiple countries . If your child loves to travel and learning about the world, this is the class for them!	Toby Gillen	3-5	Tuesday (12 Weeks)	14	\$305
<u>PUPPETRY ON FILM</u> Think Muppets Take Manhattan and you get the idea! Students will create their own puppet character, then learn the basics of filmmaking to create a short puppet movie. This class will combine art, playwriting, filming, and performing so there's something for every student wants to bring their creative ideas to life. The finished video will be shown on the big screen as part of the annual Student Showcase at The Picture House in Pelham.	The Picture House	1-2	Tuesday (12 Weeks)	12	\$305
<u>SONG AND DANCE</u> In this program Kindergartners will be moving to classical works and singing authentic folk music for a fun filled hour after school. We will explore our singing voices through creative vocal exploration as well as learning about movement and spacial awareness with the help of great composers and their classical works.	Marina Brown	K	Tuesday (12 Weeks)	20	\$305

Course & Description	Instructor	Grade Range	Days	Max Enrollment	Price
<u>AIRPLANE ENGINEERS</u> It's STEM! Build it! Fly it! Keep it! Do you question how a machine as heavy as an airplane can fly? Do you want to learn how air pressure works perfectly to create airplane lift? Does testing the limits of your model airplane intrigue you? If you answered yes, then you are qualified to be an Airplane Engineer! You'll use this newly-learned knowledge to build your own airplane and then fly it in the ultimate test flight. If having fun while learning STEM concepts is what you love, then this course is for you!	Hobby Quest	3-5	Thursday (12 Weeks)	16	\$330
<u>DIGITAL PHOTOGRAPHY</u> Want to enhance your photography skills? Explore the amazing world of digital photography by using your smartphone! We will take photographs and use photo editing apps on your phone. If your child doesn't have a smartphone, they will be provided with a camera from the school.	Jackie D'Arco	5-8	Thursday (8 Weeks)	10	\$225 Register Through MS BASC
<u>FASHION FLEECE</u> Sign up for Hobby Quest's Fashionable Fleece class, and create one of a kind chic pieces perfect for your cold weather wardrobe! In this session we are focusing on staying warm, and designing adorable skirts and vests made out of snuggly fleece to beat the chill. We'll teach you how to take this favorite fabric and turn it into amazing, trendy pieces that you'll want to wear all winter long! From designing and sketching to seeing your vision come to life, we'll walk you through the process of sewing and decorating your pieces. You'll even get to create some accessories, like bracelets or necklaces, to give your outfit that little extra edge! At the end of the session, your friends and family will be amazed when they see you model your designs at your own runway show! Join us this season and discover the designer in you! Design it! Create it! Show it! Keep it!	Hobby Quest	3-5	Thursday (12 Weeks)	16	\$330

Course & Description	Instructor	Grade Range	Days	Max Enrollment	Price
<u>GLOBAL ART ADVENTURE</u> Hola, Konnichiwa, Ni Hao, Hello & Welcome to Global Art Adventure! Children will travel on an amazing journey, celebrate many countries, cultures, festivals, artists and create extraordinary Art Creations! Projects may include- Chinese New Year Pig Art, Picasso Art, African Clay Sculpture, Robot Project, Japanese Sculpture, Blue Dog Painting and lots more! Explore cool materials and learn new techniques as we work with special paints, clay, stones, shells, beads, branches, cardboard, stamps, paint sticks, etc. Learn to construct, sculpt, build, stencil, stamp and have a fun, creative learning experience! Express your own style and celebrate diversity. Discover the world, one art adventure at a time.	Susan Bevil Little Artists	1-3	Thursday (12 Weeks)	15	\$330
<u>GOLF AND TENNIS</u> TGA makes it convenient and fun for your child to learn and play golf right at your school! Our curriculums was specially designed by industry-leading golf and tennis professionals and education specialists to ensure that the lesson plans are age-appropriate and easy to understand and retain. Students will experience a mix of golf and tennis instruction, rules and etiquette lessons, educational components, character development lessons and physical activity as they advance through the five-level program. Our screened and certified instructors have a passion for working with children and are trained to help your student athlete develop a strong foundation of skills and knowledge as well as a passion for each sport.	Play TGA	1-3	Thursday (12 Weeks)	16	\$330
<u>GYMNASTICS</u> Students should be excited about the first ever kindergarten gymnastics class! Kids will have the opportunity to explore various gymnastic skills from body weight movements, to tumbling, to balance. This gymnastics class will help develop strength, coordination, and flexibility, and will boost self confidence. BASC now has balance beam, tumbling aide, as well as a training bar that kindergarten students will love!	Gillian McGovern & Val Palacio	K	Thursday (12 Weeks)	24	\$305

Course & Description	Instructor	Grade Range	Days	Max Enrollment	Price
<u>INTERMEDIATE SPANISH</u> Fun and grammar come together in this class. We try to make learning as fun as we can go, incorporating children into an environment where they have to use their memory to speak and manage the situation. This class is for the students from grades 3-5 who has some Spanish knowledge. Please note, that this class will run one day per week.	Mi Atico	3-5	Thursday (12 Weeks)	12	\$330
<u>KINDERGARTEN SCIENTISTS</u> It is the BASC team's pleasure to welcome Karen Green, Middle School Science teacher, to the program. Karen is excited to be teaching a kindergarten Mad Science class that uses every day materials to conduct cool science experiments. We hope to see you in Mrs. Green's laboratory for the upcoming semester!	Karen Green	K	Thursday (12 Weeks)	15	\$305
<u>LITTLE NINJA WARRIOR AND SPARTAN RACE TRAINING</u> With the the overwhelming popularity of the ninja warrior course from the fall semester, the BASC Team has decided to get the 1st and 2nd graders involved in the excitement! If you child loves obstacle courses, ninja warrior challenges, and training for spartan races, this is the class for them. Caralyn Nannariella, will have the class jumping, swinging, and participating in challenges that kids will love. Students will be engaged in short workouts that will make it seem like they are at a Spartan Race! In addition, to the classes at the school, students will have an amazing opportunity to take a trip to the new Ninja Warrior facility in Elmsford.	Caralyn Nannariello	1-2	Thursday (12 Weeks)	18	\$330
<u>ROBOTICS</u> Join the DAE in learning how to program robots to navigate mazes, play music, and explore the classroom! Students will use Edison, a simple but extremely capable robot, and a block-based programming language to complete a series of challenges.	Digital Art Experience	1-3	Thursday (12 Weeks)	12	\$330

Course & Description	Instructor	Grade Range	Days	Max Enrollment	Price
<u>ROBOTICS</u> In this course we will explore all things robotics! We will learn to program various robots do all sorts of neat tricks, from moving through obstacles and mazes, to singing and making LEDs light up. We will program our robots to come to life!	Carol Deljuidice	4-5	Thursday (12 Weeks)	12	\$305
<u>SING</u> Come SING! your heart out in this new chorus class - pop, rock, Broadway - we will do it all together in harmony. All students welcome, you just need to bring your voice!! This class will develop your singing technique and teach how to work in an ensemble to create amazing harmonies. We will also have a chance the last day of class to perform on stage!!!	Marina Brown	3-5	Thursday (12 Weeks)	12	\$305
<u>TRACK STARS</u> Come hit the track and the great outdoors as coaches show students good warm-up and cool-down techniques, as well as tips to develop speed, quickness, and agility. When the weather is nice we will use the track and head to scout field to run and enjoy the great outdoors. When the weather does not cooperate, don't worry, you'll get some valuable experience on the indoor fitness equipment and even run through the school! In addition, we will use heart rate monitor technology to track our mileage, heart rates, and measure our exercise intensity. Coaches will also be introducing field events such as long jump, high jump, shot put, and hurdles. This coed class gladly welcomes all abilities levels.	Anthony Vaglica	3-5	Thursday (12 Weeks)	24	\$305

Course & Description	Instructor	Grade Range	Days	Max Enrollment	Price
<u>ADVENTURES IN SCRATCH (LEVEL II)</u> Learn to build advanced games using Scratch! Building on what was learned in Adventures in Scratch. Students will learn more complex and real world aspects of computer programming. Games created will include multiple levels, multiple enemies, realistic gravity, and more! Best of all is that the games created in class can be shared with friends and family!	Digital Art Experience	2-4	Friday (12 Weeks)	12	\$330
<u>BASKETBALL</u> Basketball is back for another semester! Coach Tatarian will have your kids shooting, rebounding, and covering the court like a pro. If your child loves basketball or if he/she is trying the sport for the first time, this class is a great choice.	Dean Tatarian	1-3	Friday (12 Weeks)	20	\$305
<u>CREATE YOUR OWN COMMERICAL</u> Did you ever think you have a better idea for a commercial than the ones you see on TV? In this class students will learn all about the commercial world – how they're made, who makes them, and why they work (or don't). They'll watch examples for fun and inspiration, then work together on their own concept. They'll create a product to try to sell, then write, film, and perform their own commercial. This class is perfect for kids with big ideas who want to perform or learn about working on the production team behind the camera. The finished video will be shown on the big screen as part of the annual Student Showcase at The Picture House in Pelham.	The Picture House	3-5	Friday (12 Weeks)	12	\$305
<u>CREATIVE CODING</u> Coding is the new literacy! In Creative Coding with K, kindergarten students can program their own stories and games. In the process, they'll learn to solve problems, design projects, and express themselves creatively on the computer.	Jessica Redmond	K	Friday (12 Weeks)	12	\$305

Course & Description	Instructor	Grade Range	Days	Max Enrollment	Price
<u>COOKING</u> The Cooking Crew is back for another semester! Grab your aprons and let's get cooking! The fun filled foodie adventure continues with all NEW tasty treats and delicious recipes from around the world! We'll learn how to make pasta from scratch, the secret to making crepes and how to make authentic spanakopita! This class is offered for both new and repeat students.	Fran Brescia	1-3	Friday (12 Weeks)	12	\$330
<u>DRAWING AND PAINTING</u> Love art? Join this drawing and painting class to enhance your art skills! We will draw/paint from life, photographs, and your imagination!	Jackie D'Arco	5-8	Friday (7 Weeks)	10	\$225 Register Through MS BASC
<u>FLAG FOOTBALL</u> "Are you ready for some football!" Flag Football is back for the second semester! Coaches will teach a skill of the day on both sides of the ball including the core components of passing, receiving, de-flagging, and defensive positioning. The program ends with a Bronco Super Bowl, giving students the opportunity to showcase their skill learned throughout the semester!	Anthony Vaglica	3-5	Friday (12 Weeks)	24	\$305
<u>P.E. IS FOR ME!</u> Extend the day and get ready to play! Mrs. Frawley, our awesome Elementary School PE teacher, is ready to get the kindergarten students moving! This semester encompasses all the best physical education can offer. Students will participate in activities that promote a healthy lifestyle while cooperatively engaging with peers. If you kids love PE, sports, and games, this class is for them!	Jackie Frawley	K-1	Friday (12 Weeks)	24	\$305

Course & Description	Instructor	Grade Range	Days	Max Enrollment	Price
<u>SECRET AGENT LAB</u> Step into the shoes of a detective and uncover the science involved in evidence gathering and analysis. You will probe the science of tracking as you stamp out scenarios and uncover codes in this session. Some of the weekly topics in this session include: Crime Lab, Cracking the Case, The Science of Security, Agent Undercover, Sleuths on the Scene, Funky Forensics, Spy Academy, Junior Detectives, Discover Detection and Whodunit?	Mad Science	1-3	Friday (12 Weeks)	12	\$330
<u>SEW HAPPY</u> We are proud to introduce Sew Happy's newest project, "Llama Drama" inspired by the art and culture of South America and hand painted in watercolors. Students will begin by practicing stitches on a round mug rug, then they will have fun sewing, stuffing and decorating a llama stuffie and blanket. The final part of this project is a llama/cactus keychain with interchangeable accessories. Students will enjoy dressing their felt friends with sunglasses, bows, hats and scarves.	Sew Happy	1-4	Friday (12 Weeks)	12	\$305
<u>STEM SUPERHEROES</u> Learn how Thor flies, why Superman needs energy from the Sun and help Aquaman save a sinking ship from the depths of the ocean. Students won't be tinkering in Tony Stark's workshop to help save the world, they will be learning about the historic inventors and innovators who used science, engineering and math to become real-life STEM SUPERHEROES!	Lori Stratton	1-2	Friday (12 Weeks)	12	\$330
<u>WATERCOLOR</u> Imagine painting a beautiful picture. Yes, you can do it and with all the colors that you love! Well, this can happen, and you can do it, in this fun-tastic NEW watercolor class with Mr. Mike. You will be able to paint better than you ever imagined possible. Create birds, butterflies, flowers, people, rainbows and princesses, mountains and places from your imagination. So come join Mr. Mike and open up your imagination with the beauty of watercolor!	Mike Teator	2-5	Friday (12 Weeks)	12	\$305
